	Connect by inserting the cable tray directly into the accessories and securing it with NIXSM 6X10 bolts. To protect the cables, the bolt head is inside the cable tray.
material:	IX - stainless steel AISI 304 (AISI 316, AISI 316L only to order)
sales amount:	á 1 pc
meets the requirements:	EN 61537:02
classification 🔥:	ČSN 73 0895 P 90-R
	DIN 4102-12 E 90
	STN 92 0205 PS 90
	Fire classification is depend on the specific conditions of the cable tray, detailed in the catalog Systems with maintained functionality in fire
storage:	EN 60721-3-1

⚠ **WARNING**

Risk of injury from cutting

Although the cable trays are produced with maximum effort to minimize sharper edges, it is necessary to wear protective gloves to carry, grip and work with cable elements.

Electricity injury

As individual components of cable management systems are made of electrical conductive material, it is essential not to work with a system near live electrical parts. Infringement of the safety regulations may cause serious injury of health or death.

Safe Use

Under normal and foreseeable conditions of use, there are no risks to consumers, provided that proper installation and usage are carried out in accordance with the installation manual.
