type number	thickness (mm)	lenght (m)	width (mm)	
POP_PO	2,5	18	50	

product description: POP_PO is foaming fire protection tape based on graphite. It is supplied in a universal roll, allowing easy on-site installation on various types and diameters of pipes.

The tape is intended for fire-rated sealing of pipe penetrations in fire-separating walls and floors. It can be used for plastic pipes (PVC, PE, PP, multilayer), insulated composite pipes (plastic with aluminium core), and insulated copper and steel pipes.

surface finish: flexible graphite material

activation Temperature : 150 °C

classification: ČSN EN 1366-3
ČSN EN 12501-1/2
Fire classification depends on the specific promat systems 701, 704, 705 and 714.

sales amount: 1 pc (18 m)

⚠ WARNING

Thermal hazard

Exposure to high temperatures during installation or removal may result in burns.

Safe Use

Under normal and foreseeable conditions of use, there are no risks to consumers, provided that proper installation and usage are carried out in accordance with the installation manual.
